ONCE ORDER IS COMPLETE FORWARD COPY ON FOR ANY MAP UPDATES

Address signs are one of the best ways to help not only emergency responders find your home but delivery drivers, family, and friends will now be able to get to you easier by seeing your address clearly from the road. When seconds count, our reflective address signs work well in day, night, and poor weather to help others find you.

To help determine what type of address sign is needed answer these two simple questions.

1. Do I live on a dead end road where traffic comes from only one direction? If yes a single sided sign is appropriate, if not a double sided sign is needed.
2. Do I share my driveway with other uses, such as other residents, or agriculture, or forestry roads where it is not clear which road leads to my home? If yes, additional signs may be necessary and signs may need arrow indicating which direction to travel. Contact the Fire Prevention Office at 503-992-3240 to help evaluate the sign needs for your driveway.

Firefighters will check each driveway prior to the installation of the sign to ensure that the sign will be adequate and that the current fire maps show the correct location of your home.
